Versatility

CREATE NEW POSSIBILITIES...

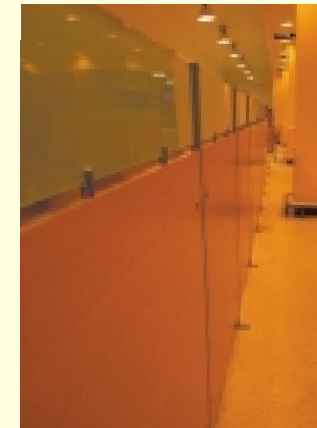

S+7

System Plus is an uniquely versatile screen system specifically designed to provide wide-ranging spatial possibilities. Its panel/post construction can be configured in many different ways . . . for offices and workstations, banks and building societies, airports, public areas, restaurants and cafeterias. The system offers a truly

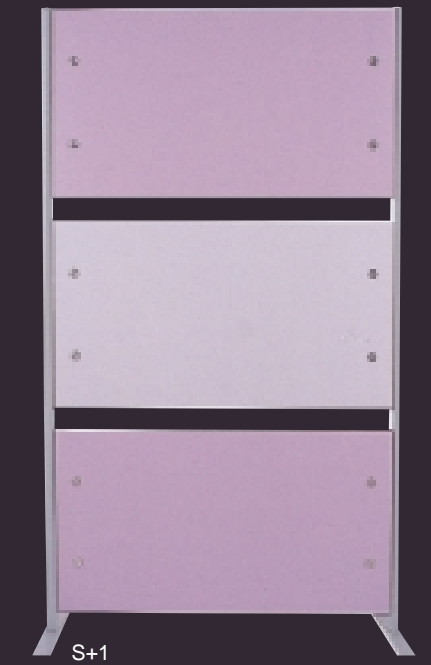

comprehensive selection of finishes. Posts in any RAL colour or stainless steel. Panels can be straight, curved or shaped, upholstered or veneered, melamine or laminate, perforated metal, perforated veneer, glass, or open cell trellis. With System Plus, the choice is yours.
